

NEVO: The Gentle Force

Behind Modern and Versatile Implantology

Saturday, 21 February 2026, 9:00 a.m. – 5:00 p.m.
Bilbao, Spain

Referent
Dr. A. Gil

This intensive, one-day course is designed to provide training for clinicians, including less experienced surgeons – with a structured and simplified roadmap to modern implantology.

Guided by the clinical versatility of the NEVO implant by Thommen Medical, the course will walk participants through a digitally integrated, biologically sound, and clinically efficient workflow that ensures predictable outcomes in a wide variety of indications.

From digital planning to guided surgery, and from immediate placement to soft tissue regeneration, Dr. Alfonso Gil will highlight how the NEVO system can be seamlessly applied in both simple and advanced implant cases – combining gentle bone management with high primary stability, even in immediacy protocols.

Alfonso Gil is a specialist in Periodontics, Implantology and Oral Rehabilitation. Together with Dr. Jaime Gil Jr., he founded AES in Bilbao with the aim of sharing the clinical expertise they have acquired over many years in the United States, Switzerland, and Spain. Dr. Gil is a renowned speaker nationally and internationally. He is a member of the SEPA, SEPES, EAO, EAED and AAP societies. He has received multiple Awards and Scholarships for his clinical work and his research projects on dental implants, fixed prostheses, and gum surgery.

Program details

09.00 – 10.00	Digital implant planning and guided surgery: from CBCT-STL integration to 3D printing
10.00 – 11.00	Immediate placement with NEVO: decision-making and prosthetic workflows
11.00 – 11.30	Coffee
11.30 – 12.30	GBR & simultaneous implant placement: simplified L-shape approach
12.30 – 13.30	Soft tissue management: VISTA tunnel access, and soft tissue substitutes
13.30 – 14.30	Lunch
14.30 – 16.00	Hands-on: NEVO implant placement & GBR using L-shape technique
16.00 – 17.00	NEVO implant placement with VISTA soft tissue augmentation
from 17.00	Pintxo tasting with selected local wine and beer
