

Nevo: the Gentle Force Behind Precise and Versatile Implantology

Streamlined protocols to boost efficiency in daily practice

September 10 – 11, 2027 (Friday–Saturday)
Bilbao, Spain

Speaker
Dr. A. Gil

Designed for clinicians ready to take the next step, this intensive two-day course with Dr. Alfonso Gil delivers practical, modern, and predictable treatment concepts that translate directly into daily practice. Starting with digital planning and guided surgery, followed by immediate implant placement, soft tissue management and restorative standard of care, the focus is on efficient workflows that simplify treatment while improving outcomes and patient satisfaction.

What participants take back to clinic:

Digital planning that works in practice – structured protocols that reduce operating time and eliminate error

L-shape GBR + immediate implant placement – compressing timelines without compromising regenerative outcomes

VISTA technique for soft tissue grafting – minimally invasive, esthetically superior, and reproducible

Simplified restorative sequencing – decision frameworks that make complex cases simple

Predictability by design – clinical tips that streamline routine outcomes, and increase efficiency and confidence in everyday implant dentistry

Hands-On

Presentation

Discussion

The gap between competence and confidence is rarely anatomical. It's procedural. This course closes it.

Driven by science, not trends.

Program Details

Friday, September 10, 2027

09:30–10:30	Clinical decision-making and simplification of implant protocols
10:30–11:30	Guided implant surgery: surgical planning and workflow
11:30–12:00	Coffee break
12:00–12:45	Simultaneous GBR and implant placement: the L-shape technique
12:45–13:30	Soft-tissue management around implants: the VISTA approach
13:30–14:15	Lunch
14:15–17:30	Hands-on workshop with NEVO implants Implant placement, GBR using the L-shape technique, and VISTA soft-tissue management concepts.
from 17:30	Socializing Dinner Local specialties in a local restaurant

Saturday, September 11, 2027

09:00–12:30	Digital workflow for implant restorations – Intraoral scanning and Integration of STL files with planning software – Prosthetic planning, emergence profile design and ideal Material selection – Milling, printing, and collaboration with the laboratory
Afternoon	Socializing Activity: Exclusive Wine Tasting Experience at a local winery

Course fee

600 € per person (excl. VAT)
Maximum number of participants 20.
Dinner and Socializing Activity is included in the Course fee.

Location

**ADVANCED ESTHETIC
SEMINARS**

Phone +34 944 35 41 40
E-mail: HA057@accor.com
GPS: 43.263993, -2.92785

Social Activity

Private Wine tasting at the Winery TIERRA

We invite you to our private group wine tasting Social Activity on Saturday right after the course. Continue lively discussions on clinical but also social topics with excellent local food and award-winning wine selections, for which the Basque region is world famous for.

Places to visit: Bilbao

Bilbao is a vibrant Basque city blending industrial history with avant-garde design, world-class culinary experience, and rich culture. It is best known for the iconic titanium-clad Guggenheim Museum, historic Casco Viejo (Old Town), and excellent pintxos (Basque tapas). The city offers a mix of modern, walkable streets and scenic green surroundings in northern Spain.

Guggenheim Museum Bilbao

is absolutely worth a visit, primarily for its groundbreaking architecture by Frank Gehry and its massive modern art installations. It is widely considered a «must-see» landmark that transformed the city, making it a cornerstone of any trip to Northern Spain's Basque Country.

Mount Artxanda

provides the best panoramic views of Bilbao, making it a top, quick, and affordable highlight of the city. A 3-minute ride on the historic Artxanda Funicular (operating since 1915) brings you to a viewpoint showcasing the city, the Nervión River, and surrounding mountains.

Getxo & Plentzia

Getxo offers a relaxed coastal, seaside atmosphere just 20–30 minutes away from Bilbao by metro. It is a premier day-trip destination known for the UNESCO-listed Vizcaya Bridge, the charming Old Port of Algorta, stunning Belle Époque mansions, and dramatic cliffside walks at La Galea.

Plentzia is located only 30–40 minutes away by direct metro (Line 1). The picturesque, historic town offers a beautiful, calm bay beach, a charming old town with medieval roots, and scenic riverside walks. It's ideal for enjoying seafood, beach relaxation, or a quiet break from the city.

Abandoibarra Stroll

(Paseo de Abandoibarra) in Bilbao is considered a «must-do» experience for visitors to the city. It is a vibrant, modern riverfront promenade that showcases the successful transformation of Bilbao from an industrial hub into a cultural, design-focused city.

San Juan de Gaztelugatxe hermitage

provides dramatic coastal views, unique stone bridge, and historic hermitage atop a rocky islet near Bilbao. Famous as a Game of Thrones filming location.
