

Thommen Medical USA Announces ROE Dental Lab as Authorized Milling Center

For release on 2/20/20

Cleveland, OH, February 20, 2020 – Thommen Medical USA (www.thommenmedical.com), a leading Swiss manufacturer of dental implant solutions, announces ROE Dental Lab as an Authorized Milling Center for the Thommen Implant System in North America. ROE has successfully completed the validation process and installed the specific mill and holder required to offer Thommen’s premium custom abutments. A full range of products including surgical guides and custom abutments are now available through this partnership.

“We are extremely excited to partner with ROE Dental Lab to deliver a seamless digital workflow and expand the footprint of our premium offering,” stated Scott Root, President of Thommen Medical USA. He continued, “With our collaborative efforts, we can provide the market with patient specific parts through their preferred digital workflow.”

Thommen Medical and ROE Dental Lab are excited by this partnership as it opens up new opportunities for the dental industry and reinforces both companies’ commitment to digital dentistry, the latest materials and workflows available in the industry today. “We are excited to be providing high quality patient specific parts for Thommen’s premium line of dental implants,” claimed BJ Kowalski, President of ROE Dental Lab.
